

## SUNY Geneseo MS in Accounting Mandatory Professional Licensure Disclosure

New York State prides itself in the high quality of its licensed and certified professionals. For the protection of its citizens, each license and certificate has requirements that individuals must meet in order to be licensed or certified in New York State. SUNY's academic programs leading to licensure or certification are carefully designed to meet and exceed these State requirements. This is a role SUNY plays in protecting the public. Other states frequently have their own requirements, so if your goal is to practice in another state, this disclosure will help you check to see what that state requires.

Per U.S. Federal Regulations, §668.43 (2019 Rule), and in compliance with the State Authorization Reciprocity Agreements (SARA) Manual version 19.2, SUNY Geneseo provides the following disclosure related to the educational requirements for professional licensure and certification.<sup>1</sup>

This Disclosure is strictly limited to the SUNY Geneseo's determination of whether its M.S. Accounting program, if successfully completed, would be sufficient to meet the educational licensure or certification requirements in a State for teacher certification/licensure.<sup>2</sup> SUNY Geneseo cannot provide verification of an individual's ability to meet licensure or certification requirements unrelated to its educational programming. Such individual determinations are made by state licensing boards and are fact-specific determinations.

This disclosure does **not** provide any guarantee that any particular state licensure or certification entity will approve or deny your application. Furthermore, this disclosure does **not** account for changes in state law or regulation that may affect your application for licensure and occur after this disclosure has been made. **Enrolled students and prospective students are strongly encouraged to contact their State's licensure entity using the links provided to review all licensure and certification requirements imposed by their state(s) of choice.**

SUNY Geneseo has designed an M.S. in Accounting curricular program that, if successfully completed, **is sufficient to meet** the licensure and certification requirements for an accounting license in the following states:

New York	<a href="http://www.op.nysed.gov/prof/cpa/">http://www.op.nysed.gov/prof/cpa/</a>

---

<sup>1</sup> The terms related to accounting educational programs, including licensure and certification, among others, vary by state and your state may use different terms.

<sup>2</sup> This determination is based on the educational and curricular requirements of each state for licensure and does **not** imply that other requirements for licensure do not exist or have been determined to have been met by this program. Each student should verify their particular situation with their intended state's licensing entity.

SUNY Geneseo has made no determination that the M.S. in Accounting curricular program is **insufficient to meet** the curricular requirements for certification/licensure requirements in the following states or territories. Likewise, after making all reasonable efforts, SUNY Geneseo **cannot determine** whether its Undergraduate or Graduate Educator Preparation curricular programs, if successfully completed, are sufficient to meet the certification and licensure requirements in the states and territories listed in the table below.<sup>3</sup>

This disclosure does **not** provide any guarantee that any particular state certification or licensure entity will approve or deny your application. Furthermore, this disclosure does **not** account for changes in state law or regulation that may affect your application for licensure and occur after this disclosure has been made. **Enrolled students and prospective students are strongly encouraged to contact their State’s licensure entity using the links provided to review all certification and licensure requirements imposed by their state(s) of choice.**
