Linguistics Minor

Denice Szafran, Coordinator (Sturges Hall 13)

The Linguistics Minor Program offers a study of the basic concepts and principles in modern linguistic theory, methods of linguistic analysis, and applications of linguistics to other areas of study. The purpose of this program is to provide the interested student with a solid background for work in any field that involves a significant component of communication, such as anthropology, psychology, sociology, communication, education, languages, mathematics, speech and hearing sciences and computer science.

Total Required Hours: 24-27
