

Jennifer Lynn Apple

SUNY Geneseo
Department of Biology
1 College Circle
Geneseo, NY 14454

Phone: 585-245-5442

FAX: 585-245-5007

E-mail: applej@geneseo.edu

I. EDUCATION

Ph.D. in Biology, University of Utah, Salt Lake City, Utah, May 2001.

Dissertation title: Consequences of resource environment for the interactions between ants, herbivores, and their host plants. Advisor: Donald H. Feener, Jr.

B.S. in Biology, University of Puget Sound, Tacoma, Washington, 1994. Graduated Summa Cum Laude with Honors in Biology

II. ACADEMIC EMPLOYMENT

September 2013 – present Associate Professor, Department of Biology, SUNY Geneseo

August 2007 – August 2013 Assistant Professor, Department of Biology, SUNY Geneseo

June 2005 – August 2007 Postdoctoral Research Associate, Kansas State University
Advisors: Anthony Joern and Samantha Wisely

August 2004 – May 2005 Visiting Assistant Professor, Biology Department, Willamette University

April 2002 – August 2004 Postdoctoral Researcher, Washington State University-Vancouver
Advisor: John G. Bishop

August 2000 – April 2002 Postdoctoral Fellow, Smithsonian Environmental Research Center, Edgewater, Maryland
Advisor: Ilka C. Feller

III. COURSES TAUGHT

SUNY Geneseo

Biology 203 – Principles of Ecology

Fall 2007 – present

Biology 204 – Ecology Lab

Fall 2007 – present

Biology 327 – Molecular Ecology

Spring 2009 – present

Biology 345 – Biology of Insects

Fall 2018 – present

Biology 348 – Plant Diversity

Fall 2021

Biology 116 – General Biology Lab	Fall 2020
Extreme Learning 188 – Natural History & Sustainability	Fall 2019
Biology 380 – Biology Seminar: Social Insects	Fall 2014
Biology 128 – Freshman Experience in Biology (fall terms)	Fall 2011, Fall 2012
Biology 380 – Biology Seminar: Speciation	Fall 2010
Biology 380 – Biology Seminar: Molecular Ecology	Spring 2008
Biology 188 – General Biology Labs (supervised two sections)	Fall 2007 – Spring 2008, S

Willamette University (Salem, OR): Visiting Assistant Professor

Biology 110 – Principles of Biology Lecture/Lab (nonmajors course)	Spring 2005
Biology 257 – Plant Ecology and Conservation Lecture/Lab	Fall 2004
Biology 125 – Ecology, Evolution, & Diversity (lab instructor only)	Fall 2004

IV. SCHOLARLY ACTIVITY

Publications

- Apple, J.L., S.L. Lewandowski,* and J.L. Levine*. 2014. Nest relocation in the slavemaking ants *Formica subintegra* and *F. pergandei*: a response to host nest availability that increases raiding success. *Insectes Sociaux* 61:347-356.
(* undergraduate co-authors)
- Apple, J.L., T. Grace, A. Joern, P. St. Amand, and S.A. Wisely. 2010. Comparative genome scan detects host-related divergent selection in the grasshopper *Hesperotettix viridis*. *Molecular Ecology* 19:4012-4028.
- Bishop, J.G., N. O'Hara, J.H. Titus, J.L. Apple, R.A. Gill, and L. Wynn. 2010. N-P co-limitation of primary production and response of arthropods to N and P in early primary succession on Mount St. Helens volcano. *PLoS ONE* 5:e13958.
- Apple, J.L., M. Wink, S.E. Wills, and J.G. Bishop. 2009. Successional change in phosphorus stoichiometry explains the inverse relationship between herbivory and lupin density on Mount St. Helens. *PLoS ONE* 4:e7087.
- Adamski, D.A., J.L. Apple, and J.G. Bishop. 2009. A new *Filatima* Busck (Lepidoptera: Gelechiidae) associated with lupine and early herbivore colonization on Mount St. Helens. *Proceedings of the Entomological Society of Washington* 111:293-304.

Apple, J.L., and D.H. Feener, Jr. 2001. Consequences of light environment for the interactions among ants, an ant-tended herbivore, and its host plant. Oral presentation, Ecological Society of America Annual Meeting, Madison, WI.

Apple, J.L., and D.H. Feener, Jr. 1999. The effects of host plant light environment on a facultative ant-caterpillar mutualism in Panama. Poster presentation, Ecological Society of America Annual Meeting, Spokane, WA.

Invited seminars

Raids and relocations: the exploits of slavemaking ants. 11 March 2016. SUNY Buffalo State, Buffalo, NY.

Raids and relocations: the exploits of slavemaking ants. 9 December 2014. Houghton College Science and Math Colloquium, Houghton College, Houghton, NY.

Space, time, maps and molecules: dynamics of the interactions between slavemaking ants and their hosts. 7 November 2012. University at Buffalo Graduate Program in Ecology, Evolution and Behavior, Buffalo, NY.

Adaptive genetic divergence (and incipient speciation?) in a grasshopper. Fall 2008. Phi Beta Kappa Fall Faculty Colloquium. Informal seminar. SUNY Geneseo.

Host plant variation and species interactions: tropical mutualisms, primary succession, and choosy grasshoppers. Spring 2008. SUNY Fredonia Department of Biology, Fredonia, NY.

Explaining patterns in insect herbivory in primary succession at Mount St. Helens: spatial heterogeneity and nutrient stoichiometry. 2005. Kansas State University, Manhattan, KS.

Shedding light on an ant-plant-herbivore interaction. 2002. Willamette University, Salem, OR.

Shedding light on an ant-plant-herbivore interaction. 2002. Washington State University, Vancouver, WA.

Consequences of light environment for the interactions among ants, an ant-tended herbivore, and its host plant. 2000. Smithsonian Environmental Research Center, Edgewater, MD.

External grants submitted

Preliminary Proposal: RUI: Interactions between slavemaking ants and their hosts: spatiotemporal dynamics, host responses, and parasite impacts. Submitted to NSF Division of Environmental Biology (Population and Community Ecology Cluster) as sole PI on 23 January 2013.

Preliminary Proposal: RUI: Spatial and temporal dynamics of interactions between slavemaking ants and their hosts. Submitted to NSF Division of Environmental Biology (Population and Community Ecology Cluster) as sole PI on 9 January 2012.

Historical demography, host plant use, and incipient speciation in the grasshopper *Hesperotettix viridis*. Submitted to the NSF Division of Environmental Biology (Evolutionary Processes Cluster) on 9 July 9 2007. PI: A. Joern, Co-PIs: J. Apple, S. Wisely.

Fellowships, grants, and awards

Roemer Summer Faculty Fellowship, 2019

Campus Sustainability Leadership Award, 2019

Drs. Carol & Michael Harter Faculty Mentoring Award, 2018

SUNY Geneseo Incentive Grant, Summer 2018 (for equipment and student assistance in studying behavior and habitat selection of ant-mimicking spiders)

SUNY Geneseo Incentive Grant, Summer 2016 (for attendance of native bee workshop in Maine)

2011-2012 Ambassador Apartments Endowed Faculty Excellence Award

SUNY Geneseo Incentive Grant, Summer 2011 (for attendance of ant identification workshop in Maine)

SUNY Geneseo Presidential Summer Faculty Fellowship, 2010

Bulk Fragment Analysis and Genotyping funding support through the Kansas State University Ecological Genomics Institute and Targeted Excellence. 2006. Total awarded: \$5000.

National Science Foundation Doctoral Dissertation Improvement Grant: The effects of variation in host plant quality on a facultative ant-caterpillar mutualism. 1999-2000. Total awarded: \$9500

Sigma Xi Grant-in-Aid of Research: The effects of variation in host plant quality on a facultative ant-caterpillar mutualism. 1999. Total awarded: \$890

Sigma Xi Grant-in-Aid of Research: The effects of variation in host plant quality on a facultative ant-caterpillar mutualism. 1998. Total awarded: \$1000

University of Utah Graduate Research Fellowship, 1998-1999

National Science Foundation Graduate Research Fellowship, 1994-1995, 1996-1998

V. MENTORSHIP ACTIVITY

Mentored student presentations

- † undergraduate researcher and presenter (all work also presented at GREAT Day, Geneseo's campus-wide research symposium)
- †Mills, Cassidy, *Daniel Fleischman, and Jennifer L. Apple. 2021. Genetic diversity in a non-native ant-mimicking spider in its invaded range. Poster presentation. American Arachnological Society Annual Meeting (virtual).
- †Ophals, Julia, †Niaomi VanAlstine, and Jennifer L. Apple 2021. Success of Batesian mimicry in the ant-mimicking spider *Myrmarachne formicaria*. Poster presentation. American Arachnological Society Annual Meeting (virtual).
- †Menendez, Allison A., and Jennifer L. Apple. 2021. Evaluating the use of artificial nests by native bees. Poster presentation. Northeast Natural History Conference (virtual). Earned Biology Department's Mark Diamond Research Award for Poster Presentation in GREAT Day.
- †Mills, Cassidy, and Jennifer L. Apple. 2021. Describing Genetic Diversity in a Non-Native Ant-Mimicking Spider. Poster presentation. Northeast Natural History Conference (virtual).
- †Ophals, Julia, †Niaomi VanAlstine, and Jennifer L. Apple. 2021. Success of Batesian Mimicry in the Ant-mimicking Spider *Myrmarachne formicaria*. Poster presentation. Northeast Natural History Conference (virtual). Earned second place for non-avian undergraduate poster in conference.
- †Richman, Alanna, †Bea Dipzinski, and J.L. Apple. 2020. Effectiveness of Batesian mimicry in the ant-mimicking spider *Myrmarachne formicaria*. Poster presentation. Northeast Natural History Conference. Conference cancelled due to Covid-19 concerns.
- †Fleischman, Daniel, and J.L. Apple. 2020. Genetic diversity of a non-native ant-mimicking spider, *Myrmarachne formicaria*, in the Great Lakes. Conference cancelled due to Covid-19 concerns.
- †Muscat, Samantha, and J.L. Apple. 2019. Herbivory and arthropod abundance on native and invasive understory shrubs. Poster presentation. Northeast Natural History Conference, Springfield, MA.
- †Richman, Alanna, and J.L. Apple. 2019. Relationship between the incidence of an ant-mimicking spider (*Myrmarachne formicaria*) and ant abundance and diversity. Poster presentation. Northeast Natural History Conference, Springfield, MA.
- †Schultz, Christine, and J.L. Apple. 2019. Exploration of fox den family dynamics using camera trap data. Poster presentation. Northeast Natural History Conference, Springfield, MA.

- †Zhou, Jacqueline, and J.L. Apple. 2019. Display behaviors in encounters between males of the ant-mimicking spider *Myrmarachne formicaria*. Poster presentation. Northeast Natural History Conference, Springfield, MA.
- †Heraghty, Sam, and J.L. Apple. 2018. Patterns in native bee diversity: effects of floral resources and habitat. Poster presentation. Northeast Natural History Conference, Burlington, VT.
- †Jones, Ally, and J.L. Apple. 2018. Interactions between beech blight aphids, sooty mold fungus, and forest invertebrates. Poster presentation. Northeast Natural History Conference, Burlington, VT.
- †Klball, Aaron, and J.L. Apple. 2018. Impact of vegetation history on forest development in a heterogeneous secondary successional forest. Northeast Natural History Conference, Burlington, VT.
- †Lang, Jason, and J.L. Apple. 2018. Effect of habitat type on wasp abundance and diversity on the SUNY Geneseo Campus. Poster presentation. Northeast Natural History Conference, Burlington, VT.
- †Martin, Emily, and J.L. Apple. 2018. Extended leaf phenology of the invasive Amur honeysuckle. Poster presentation. Northeast Natural History Conference, Burlington, VT.
- †Zablonski, Kevin, and J.L. Apple. 2018. Genetic comparison of slavemaking ant colonies to complement assays of aggression between nests. Poster Presentation. Northeast Natural History Conference, Burlington, VT.
- †Coacci, John, and J.L. Apple. 2017. Comparing decomposition rates of nitrogen-fixing and non-nitrogen-fixing invasive species. Poster Presentation. Northeast Natural History Conference, Cromwell, CT.
- †Heraghty, Sam, and J.L. Apple. 2017. Patterns of native bee diversity: comparison of sampling methods and effects of floral resources and habitat. Poster presentation. Northeast Natural History Conference, Cromwell, CT.
- †Murray, Frances, †Ryan Colling, and J.L. Apple. 2017. Documenting the extended leaf phenology of invasive shrubs using a citizen science approach. Poster presentation. Northeast Natural History Conference, Cromwell, CT.
- †Loo, Hannah, and J.L. Apple. 2017. Examination of multiple infections of *Wolbachia* in free-living, enslaved, and slavemaking *Formica* ants. Poster presentation. Northeast Natural History Conference, Cromwell, CT.
- †Nagel, Robina, and J.L. Apple. 2017. Identifying the fungal associates of honeydew deposits from the beech blight aphid. Poster presentation. Northeast Natural History Conference, Cromwell, CT.

- †Varghese, Merin, and J.L. Apple. 2017. Screening and optimizing microsatellite loci for genotyping *Formica* ants. Poster presentation. Northeast Natural History Conference, Cromwell, CT.
- †Backhaus, Josh, and J.L. Apple. 2016. The effect of invasive shrubs on soil carbon dioxide emission rates compared to native dogwood in Spencer J. Roemer Arboretum. Poster presentation. Northeast Natural History Conference. Springfield, MA.
- †Koob, Julian, and J.L. Apple. 2016. Spatial and molecular ecology of the parasitic plant *Monotropa uniflora*. Poster presentation. Northeast Natural History Conference. Springfield, MA.
- †Mrakovcic, Hannah, and J.L. Apple. 2016. Herbivore damage on native vs. invasive shrubs in Roemer Arboretum. Poster presentation. Northeast Natural History Conference. Springfield, MA.
- †Scandaglia, Gina, and J.L. Apple. 2016. Removal of fruits by birds from native vs. invasive shrubs in Roemer Arboretum. Poster presentation. Northeast Natural History Conference. Springfield, MA.
- †Wu, Bowen, and J.L. Apple. 2016. Comparison of the genetic composition and colony structure of *Formica glacialis* nests over time. Poster presentation. Northeast Natural History Conference. Springfield, MA.
- †Barrett, Meghan, and J.L. Apple. 2015. Determination of colony structure in *Formica pergandei* using microsatellite markers. Poster presentation. Northeast Natural History Conference. Springfield, MA.
- †Doherty, Hannah, †Bowen Wu, and J.L. Apple. 2015. Genetic identity and colony structure of *Formica glacialis* colonies before and after slavemaker occupation. Poster presentation. Northeast Natural History Conference. Springfield, MA.

Supervised honors theses

Christine Schultz ('19) – Exploration of fox den family dynamics using camera trap photos - Edgar Fellows Honors Thesis; to be presented at GREAT Day 2019

John Coacci ('17) - Comparing decomposition rates of nitrogen-fixing and non-nitrogen-fixing invasive species. Biology Honors Thesis; presented at GREAT Day 2017

Gina Scandaglia ('17) - Removal of fruits by birds from native vs. invasive shrubs in western New York - Edgar Fellows Honors Thesis; presented at GREAT Day 2016

Sara Lewandowski ('11) - Behavioral, spatial, and genetic characteristics of Geneseo's slavemaking ants and their hosts, Biology Honors Thesis; presented at GREAT Day 2011 and recipient of the Biology Department's Mark Diamond Memorial Research Award for oral presentation

Supervised undergraduate summer research fellowships

Allison Menendez ('21) – Evaluating the use of artificial nests by native bees. Geneseo Undergraduate Summer Research Fellowship, summer 2020

Sam Heraghty ('18) - Evaluating bee diversity, floral resource usage, and bee sampling methods in the Spencer J. Roemer Arboretum. Geneseo Undergraduate Summer Research Fellowship, summer 2017

Hannah Doherty ('15) - Dynamics of raid development and execution in the slavemaking ant *Formica subintegra*. Geneseo Undergraduate STEM Summer Research Award, summer 2013

Vincent Stowell ('14) - Developing behavioral assays of aggression and activity in *Formica glacialis* ants. Geneseo Undergraduate Summer Research Fellowship, summer 2012

Other mentored student research projects (not listed above under mentored student presentations)

‡ poster presented at GREAT Day – campus-wide research symposium

‡ Chloe Cottone ('20) – Development of video monitoring methods to study ant-mimicking spider behavior (June 2018 – spring 2019)

Nikki Winchester ('17) – Effects of abandoned ant nests on soil properties and plant diversity and cover; August 2015 – May 2016

‡ Cole Gleason ('16) and Rachel Moore ('16) – Microsatellite analysis of adult and larval sea star populations; September 2014 – May 2016 (co-advised with Dr. Sid Bosch)

Allie Tuchrello ('15) – Abiotic environmental correlates of *Formica glacialis* activity; June 2014 – December 2014

‡ Nick Piedmonte ('14) and Rachel Moore ('16) – Microsatellite analysis of genetic diversity in clonal sea star larvae; September 2013 – May 2014 (co-advised with Dr. Sid Bosch)

‡ Joe Aladeen ('13) and Joann Lam ('14) – Using mitochondrial DNA analysis to examine relatedness within polygynous *Formica glacialis* colonies; September 2012 – May 2013

Daniel Kane ('12) – Improvement of a real-time PCR assay to compare expression of the foraging gene in the slavemaking ant *Formica subintegra* and its host *Formica glacialis*; September 2011 – May 2012

‡ Bridget Neary ('10) – Measuring genetic relatedness in two slavemaking ant species; Summer 2009 – Spring 2010

‡ Morgann Clark ('11) and Daniel Kane ('12) – Expression of the foraging gene in slavemaking ants and their hosts; Summer 2009 – May 2011

‡ Peggy Reyes ('10) – Screening for *Wolbachia* infection in the ant *Formica glacialis*; Spring 2010

Peggy Reyes ('10) – Seed predation by insects in red and white oaks; Fall 2009

‡ Alexandra Truex ('09) – Testing microsatellite loci for amplification and polymorphism in local *Formica* mound-nesting ants; Fall 2008 – Spring 2009

Aspen Ainsworth ('09) – Mitochondrial DNA variation in the grasshopper *Hesperotettix viridis*; Fall 2008 – Spring 2009

‡ Stephanie Paladini ('09) – Screening for *Wolbachia* presence in the grasshopper *Hesperotettix viridis* and other Orthoptera; Summer and Fall 2008 – Spring 2009

‡ Dillon Meier ('09) – Patterns in the spatial distribution of *Formica* slavemaker ants and their hosts; Summer 2008 and Fall 2008 – Spring 2009; recipient of the Biology Department's Mark Diamond Memorial Research Award for poster presentation

‡Aspen Ainsworth ('09) – The effects of *Brassica rapa* trichomes on feeding choice and growth in cabbage white butterfly larvae; Spring 2008

VI. SERVICE

Department service

Biology Personnel Committee	2013-2015, spring 2016, 2017-2019, 2020-2021 (chair, Fall 2017, Fall 2018, 2020-2022)
Biology Assessment Committee	Spring 2020 – Spring 2022
Biology Search Committee for Visiting Assistant Professors	Spring 2018
Biology Curriculum Committee	2009 – 2011, 2016 – 2018 (chair)
Biology Search Committee for A&P Instructor	2014-2015
Instructional Media & Information Technology Committee	2014 – 2016
Graduate Committee	2011 – 2015
Ad Hoc Animal Care Committee	2007 – present
Biology Undergraduate Committee	2008 – 2014 (Fall 2011 – Spring 2014, chair)
Biology Seminar and Programs Committee	2007 – 2010 (Fall 2008 – Spring 2010, chair)
Program Review Committee (not involved in writing report for reviewers)	2010 – 2011
Ad Hoc Laboratory Committee	2011 – 2012

College service

Spencer J. Roemer Arboretum Advisory Board, Chair	August 2013 – present
Spencer J. Roemer Arboretum Advisory Board, Acting Chair	May 2013 – August 2013
Faculty advisor, Nature Walk Club	September 2016 – 2021

Committee participation

SUNY Geneseo Research Council, Chair	2019 - 2021
SUNY Geneseo Research Council	2010 – present, (fall 2017 – present, 2016-2019, vice-chair)
Phi Beta Kappa, SUNY-Geneseo Chapter	2007 – present
Phi Beta Kappa, Membership Committee	2010 – present
Physics Department Program Review Committee, external member	Spring 2019
Geography Search Committee, external member	Spring 2016
Presidential Scholars Committee	2012 – 2014 (2013, 2014, chair)
Sustainability Commission	2015 – 2020
Campus Tree Committee	2016 – present

Activities

Presentation on the Insect Apocalypse to the Geneseo Beekeeping Club	October 2019
Student-Faculty Lecture Series: Managed Bees & Native Bees	November 2019

Community service

Member, Genesee Valley Conservancy Board of Directors; April 2017 – present

Member, Geneseo Trail Town Committee, January 2021 - present

Received Environmental Improvement Award from Geneseo Garden Club, April 2017

Public lecture for Discovery Café series – “Why we should care about native pollinators?” 24 April 2018

Led walks in the Arboretum for the Geneseo Garden Club (10 June 2015), Alden Garden Club (19 June 2015), Herb Society of Batavia (7 June 2016)

Led presentation on using natural spaces and field activities to enhance science education for the New York State Master Teachers Program; 2 May 2015

Participated in BioBlitz at SUNY Fredonia College Lodge; 18-19 July 2014

Led insect walks at the SUNY Geneseo Research Reserve for the Genesee Valley Conservancy as part of its nature walk series; July 2010, 2011, 2012, 2013

Public lecture, Genesee Valley Conservancy, “Abductions and invasions: the lives of slavemaking ants”, 17 October 2014

Service to discipline

Reviewed proposals for National Science Foundation Fall 2008, Fall 2009, Fall 2011

Reviewed manuscripts for *Biologia* (1) *Molecular Ecology* (3),
Ecosphere (1), *PLoS ONE* (1), *Ecology* (1), *Ethology* (1) Fall 2011 - present

VII. PROFESSIONAL GROWTH

Centering Diversity, Equity, and Inclusion in Undergraduate Research and Creative Activity virtual conference. 23-25 June 2021.

Centering DEI: Practical Tools for Sustaining Transformative Racial-Equity in Undergraduate Research Programs virtual workshop. 22 June 2021.

BCEENET (Biological Collections Ecology and Education Network) Virtual Meeting. 14-15 June 2021.

Game of Logging Chainsaw Training 1-day course, Level 1, 24 May 2021

Quantitative Undergraduate Biology Education and Syntheses - Project (QUBES) Faculty Mentoring Network “Scientists Spotlights and Data Nuggets.” Spring 2021.

Quantitative Undergraduate Biology Education and Syntheses - Project (QUBES) Faculty Mentoring Network “Make Teaching with R in Undergraduate Biology Less Excruciating (TRUBLE).” Spring 2020.

Empire State Native Pollinator Survey Workshop, New York Natural Heritage Program. 30 June 2018.

Ecological Society of America/Quantitative Undergraduate Biology Education and Syntheses - Project (QUBES) Faculty Mentoring Network “Data discovery - bringing research data into undergraduate classrooms.” Spring 2017.

Workshop: Native Bees as Pollinators: Diversity, Ecology, Conservation, and Habitat Enhancement. Eagle Hill Institute, Steuben, ME, 10-16 July 2016.

Life Discovery – Doing Science Education Conference, Baltimore, MD. 18-19 March 2016.

Workshop: Ants of New England. Eagle Hill Institute, Steuben, ME. 10-16 July 2011.

Genomics in Education iPlant Faculty Workshop – Canisius College, Buffalo, NY. 10-11 June 2011. (Workshop presented by the DNA Learning Center of Cold Spring Harbor Laboratory)

Finger Lakes Project 2011: Sustainability as a Transformative Learning Experience – workshop on sustainability education – Ithaca College, Ithaca, NY. 25-27 May 2011.

SUNY Conversations in the Disciplines: Cooperation: Self Interest and Mutual Interest – Cornell University, Ithaca, NY. 16 October 2009.

NSF Day – workshop on NSF programs, proposal review process, and proposal preparation – Binghamton College, Binghamton, NY. 15 January 2009.

Council on Undergraduate Research Workshop: Beginning a Research Program in the Natural Sciences at a Predominantly Undergraduate Institution – Davidson College, Davidson, NC, 8-10 June 2008.

Workshop: Introduction to Quantitative Trait Locus (QTL) Mapping in Experimental Populations – Kansas State University, Manhattan, KS. 29 April 2007.

Microsatellite Development Workshop – Kansas State University, Manhattan, KS. 19-25 July 2005.
