

Substance-Free Housing Agreement:

The B-Section of Livingston Hall and B Section of Jones Hall are available to residents who want to live in Substance-Free Housing. Substance-Free is not designed to be separate. Rather it brings people with similar interests, goals, and lifestyles together in a common living environment. All students are eligible to live in Substance-Free Housing. Regardless of the reason(s) for choosing to live in Substance-Free Housing, all residents of these sections agree to hold each other accountable to the following:

1. Students will not possess or consume alcohol, tobacco or illegal drugs in the living environment regardless of age.
2. Students will not return to the Substance-Free living environment in an intoxicated and/or disruptive state
3. Students will not negatively impact the living environment through the decision to use or have contact with any substances beyond the residence hall. For example, a resident in this area who has either smoked or been in a smoking environment is obligated to not bring this smell back to the Substance-Free section.
4. Students will not invite guests to this area who are under the influence and/or have used any of the above substances prior to entering the Substance-Free living environment. Students must assume responsibility for all actions of their guests.
5. By violating this agreement, students may forfeit the right to continue to live in their assigned room and can be reassigned to alternative spaces on campus

I have read and understand the community standards of the Substance-Free Housing option. I agree to abide by these standards. I understand that this agreement will remain in effect throughout my residency in the Substance-Free living area. I also understand that violation of this agreement may result in administrative and/or conduct action.
