¹ Hazardous waste number.

² Chemical abstracts service number.

A waste that contains one or more of these contaminants above the indicated Regulatory Threshold (mg/L = ppm) is considered a Hazardous Waste.

It must be managed and disposed of as a Hazardous Waste.

The waste cannot be diluted to reduce the contaminant level.

It is not expected that Campus personnel will test their waste to determine ppm contaminant levels.

If any of these constituents are present in a waste, the waste should be presumed to be a Hazardous Waste.

Contracted and licensed waste management contractors will make final determinations.
