Student Pregnancy Advisement Form

Student Name (please print): ______________________________________________

G#: ______________________________________________________________

During the __________________ laboratory, students are exposed to a variety of chemical substances, some of which are potential mutagens, carcinogens and/or teratogens capable of interfering with the development of an embryo and fetus that may lead to birth defects or developmental malformations.

To take the __________________ laboratory at SUNY Geneseo, you must read and sign the statement below stating that you are aware of the potential risk of exposure in this laboratory.

I ___________________________________________ have read the above statement and am fully aware of the potential risks and am still willing to (i) take part in the __________________ laboratory at SUNY Geneseo under my own accord, and (ii) to take full responsibility for any subsequent/future deleterious effects that my participation in this laboratory may have on me or my unborn child (or children).

I have also been made aware of the material safety data sheet/safety data sheet (MSDS/SDS) for each of the chemicals that I will be utilizing in the laboratory as defined by the course syllabus.

By signing below, I therefore will not hold SUNY Geneseo, the ________________ department or any laboratory instructor or staff responsible for any subsequent deleterious effects that may result from my participation in this laboratory.
