

To apply to Medical School, you do NOT need to have the Premedical Advisory Committee write a letter on your behalf, but almost all of our Geneseo students do. In order for the Premedical Advisory Committee to write a letter on your behalf, we need to have you sign the document below.

By signing this form, I agree to the following:

1. I waive my right to read the Premed Committee letter and I allow members of the Premedical Advisory Committee to discuss its contents with any Medical Schools that I have applied to.
2. I allow the Premedical Advisory Committee to obtain my SUNY Geneseo transcript.
3. I allow the Premedical Advisory Committee to consult with the Dean of Students concerning my disciplinary record at SUNY Geneseo. [NOTE: A question on the AMCAS and AACOMAS applications addresses your disciplinary record. Having something on your record will generally NOT keep you out of Medical School, but having something on your record that you do not acknowledge on the form probably WILL keep you out of Medical School.]
