Fulbright Specialist Program

The Fulbright Specialist Program offers year-round project opportunities of two to six weeks in length. The shorter duration of Specialist projects is beneficial for both the U.S. academic or professional who may not be available to leave their position for an extended period of time and the host institution which needs an experienced partner on a short-term basis.

Visiting Scholar in Residence

The Fulbright Scholar-in-Residence (S-I-R) Program is a unique Fulbright Scholar Program initiative that is specifically driven by the goals of U.S. institutions of higher education to enhance internationalization efforts on their campuses. Through the S-I-R Program, institutions host a scholar from outside of the United States for a semester or full academic year to teach courses, assist in curriculum development, guest lecture, develop study abroad/exchange partnerships and engage with the campus and the local community.

Outreach Lecture Fund

The Outreach Lecturing Fund (OLF) provides funding for campuses to host Fulbright Visiting Scholars, already in the United States, for short-term speaking engagements. To see a list of current Visiting Scholars in the U.S. please visit our Scholar Directory. The OLF travel award is designed to enrich both institutions and Visiting Scholars through lectures that will promote academic disciplines and cultural understanding.
