Comments on the 2017-18 Annual Report of the Office of Sponsored Research

Traditional Funding Activities: In 2017-18 we reached \$3,568,701 for total awards. This is the second highest amount in one year and nearly equaled our 2014-15 record of \$3.63 Million. The 2017-18 total was the result of an all-time record of 34 awards to 40 faculty and staff PIs and Co-PIs in 20 departments and offices. During the 2017-18 year 51 faculty and staff members submitted 55 proposals totaling \$4,293,936 in requests. Total grant expenditures for our 38 active projects was \$1,841,234; \$1,502,617 through the Research Foundation for SUNY and \$338,617 through State accounts. This combined number reflects the highest annual grant expenditures in our history.

In the State of New York-funded programs, Milne Library received continuing support from the New York State Education Department. In SUNY-funded programs, faculty and staff from Languages and Literatures, the Dean of Academic Planning and Advising, and the Provost's Office, continued work on SUNY Expanded Investment and Performance Fund awards. We received a total of five new SUNY Performance Improvement Fund (PIF) awards for the department of Biology, the Office of the Dean of Academic Planning and Advising, the Teaching and Learning Center, and the Provost's Office, which received two awards. A faculty member in Art History had an active SUNY Innovative Instruction Technology Grants (IITG) phase I award and has received a phase II award for 2018-19. Health and Counseling held ongoing campus grant support from the NY State Office of Alcoholism and Substance Abuse Services.

Our largest single award this year was of course the Ronald E. McNair Postbaccalaureate Achievement Program award to the Access Opportunity Programs. The Office of Diversity and Equity also received a large award from the U.S. Department of Justice's Office on Violence Against Women (OVW). The Health and Counseling Center had ongoing funding from the NY State Office of Alcoholism and Substance Abuse Services to support a College environmental prevention program. Of particular note is that these three awards each support a full-time position for a program coordinator.

In addition to PIF funding, the Biology Department had ongoing research support from the National Institute of Allergy and Infectious Diseases and the Livingston County Planning Department, and also received new awards from NIH and NSF for conference support and from the Finger Lakes Project for sustainability curriculum development.

Faculty members and students in the departments of Chemistry and Music, the School of Business, and CIT were very active in technology transfer. Proposals submitted this year resulted in two University of Rochester NSF I-Corps site awards, a SUNY Technology Accelerator Fund award, and an NSF I-Corps Teams award for four different technologies.

The School of Education was again very active in 2017-18. Six awards, including those from the United Way, the Wilson Foundation, and the Rochester Area Community Foundation's Feinbloom Supporting Foundation, supported the Soaring Stars program. The Rochester Young Scholars Academy at Geneseo received support from the Greater Rochester Summer Learning Association and the Rochester City School District. A continuing award from the Rochester City School District supports our partnership with the Dr. Charles T. Lunford School 19 on its School Improvement Grant.

Faculty members in the Geography Department had continuing NSF research support and faculty from the History Department received an AAC&U minigrant for curriculum development. The Department of Geological Sciences had ongoing research funding from the Jet Propulsion Lab and NASA and ongoing NSF support for the GEOS S-STEM scholarship program. Faculty members in Mathematics and Political Science and International Relations held ongoing NSF research funding.

The Department of Physics and Astronomy had continuing support for its NSF Robert Noyce Teacher Scholarship Program and Research Experiences for Undergraduates (REU) site, Supporting Undergraduate Research at Geneseo (SURGE). Faculty members also secured new awards from the U.S. Department of Energy through the Laboratory for Laser Energetics at the University of Rochester and NASA through Cornell University's Space Grant. Ongoing support from the Consortium for High Achievement and Success supported a mentoring program.

The Psychology Department had a very successful year, receiving two Academic Research Enhancements Awards from the National Institute on Drug Abuse and the National Institute of Neurological Disorders and Stroke and public service funding from the ICHP/CRI program at the University of Buffalo.

Finally, we received word this year that two faculty members in the Departments of English and Sociology have received Fulbright awards for residency in Portugal and India for the spring semester of 2019.

During 2017-18 we continued our relationship with McAllister & Quinn (M&Q) whose staff members worked with us on the proposals which resulted in our U.S. Department of Justice's Office on Violence Against Women Campus Grant and U.S. Department of Education's Ronald McNair Postbaccalaureate Achievement Program awards. Pre-submission review by M&Q also supported our successful NIH awards. Also, our SUNY PIF award for a STEM Inclusion program was directly adapted from our Howard Hughes Medical Institute Inclusive Excellence pre-proposal, which was developed with the support of M&Q. This year M&Q worked with us on an NEH Connections Implementation grant and National Science Foundation (NSF) Research in Undergraduate Institutions and Major Research Instrumentation proposals. They also provided pre-submission reviews and edits of NSF Early Career Award, National Institutes of Health Academic Research Enhancement Award, and Camille and Henry Dreyfus Foundation Teacher-Scholar award proposals. During 2017-18 we also began work with M&Q on a resubmission of our NEH Connections proposal and a new NSF ADVANCE (Increasing the Participation and Advancement of Women in Academic Science and Engineering Careers) proposal which will be submitted on behalf of COPLAC institutions.

Internal Funding: In collaboration with the Geneseo Foundation, the Research Foundation for SUNY, and the Offices of Accounting and Grants Management, the Research Council reviewed applications from faculty members and students that resulted in 402 individual awards with a total value of \$304,092. Total internal funding for our formal grant and fellowship programs, combined with other planned expenditures in support of research and scholarly activities, amounted to \$330,514.

GREAT Day: Geneseo's twelfth annual GREAT Day showcased a total of 574 presentations (which included 265 posters), performances, and exhibits. This reflected the scholarly and creative work of 962 students who were sponsored by 157 faculty members. Dr. Barbara Kellerman, James MacGregor Burns Lecturer in Public Leadership at the Harvard Kennedy School, presented the tenth annual keynote address supported by the Jack '76 and Carol '76 Kramer Endowed Lectureship, "How to Make a Leader," to an audience of more than 300.

Thanks: We would like to thank our colleagues Betsy Colón and Traci Phillips in Grants Management, Sue Crilly and Jeff Nordland in Accounting, and Enrico Johnson in the Provost's Office for their assistance in preparing this report, and for their excellent work in support of our mission during the year. We would also like to thank the members of the Research Council, members of the GREAT Day Faculty Advisory Council and Planning Committee, our student workers, Paige Closser, Graham Callghan, Tarryn Franciosa, and Zarmeen Zahid, our GREAT Day Intern Megan Grant, our colleagues Andrea Klein and Tammy Hill in Campus Scheduling and Events, and our many GREAT Day volunteers, all of whom contributed significantly to the success of our various activities this year. We also thank Keith Walters for the beautiful cover photo.

RESEARCH DEVELOPMENT AND SUPPORT PROGRAMS 2017-18

The Research Council offers a wide range of programs to support research development and scholarly and creative activity.

Programs for Faculty Members

- **Presidential Summer Fellowships** provide untenured faculty with an opportunity to participate in scholarly activities and establish an ongoing research program. Up to six \$3,500 stipends are awarded annually from funds provided by the College.
- **Geneseo Foundation Summer Fellowships and the Roemer Summer Fellowship** support the research and creative projects of faculty who have been awarded tenure. These fellowships are intended to enable completion of a significant project or to embark in a new direction. The \$4,000 Geneseo Foundation Summer Fellowships are funded by the Geneseo Foundation, and the \$5,000 Roemer award is supported by an endowment gift to the Geneseo Foundation from the late Dr. Spencer Roemer.
- **CIEE International Faculty Development Seminar Award** supports the participation of one member of our faculty in a summer seminar of their choosing as offered annually by the Council on International Educational Exchange. The award provides \$5,000 towards the seminar fee and other related expenses. Funded by the Geneseo Foundation.
- **Proposal Writing Support Awards** provide full-time faculty members with time and other forms of support to write proposals requesting at least \$15,000 in funding for submission to external funding agencies. Faculty members may request support for the writing of either: 1) new proposals, or 2) significant revisions of previously submitted proposals. Support will be considered for major proposals in all academic fields and for a variety of initiatives (e.g. fellowships, research grants, or educational grants). The maximum award is \$3,750, one course reassignment, or \$2,500 for summer salary. Funded by the Geneseo Foundation.
- **Research Development Awards** provide support for a wide variety of needs associated with developing research and scholarly projects. Maximum award is \$1,000 or one course reassignment. Funded by the College.
- **Indirect Cost Return Awards** return part of the indirect costs to the project director for research expenses not covered by budgeted costs. Funded by the College.
- **Incentive Grants** are intended to encourage and support faculty initiatives in research and to fund pilot studies, completion of manuscripts, data analyses, bibliographic or archival searches, and creative work. Travel to archives, libraries, and laboratories is also supported. Awards are limited to \$1,000, but faculty may request an additional \$500 to support the cost of involving a student in the proposed project. Funded by the Geneseo Foundation.
- **Faculty Travel Grants** are made to participants in professional meetings. Maximum annual awards are \$800 for travel within the U.S. (excluding Hawaii) and Canada, and \$1,000 for travel to Hawaii or outside the U.S. and Canada. Funded by the Geneseo Foundation.
