

2016–2017 CHARGES TO THE SUSTAINABILITY COMMISSION

- As the College shifts from development to implementation of the Strategic Plan, undertake work assigned to the Commission in support of that Plan. Progress reports should be made regularly and at least annually to both the SPG and me.
 - Advise the Strategic Planning Group and me on: 1) actions that support effective implementation of the Strategic Plan’s Action Items that pertain to sustainability, and 2) actions that support the attainment of Geneseo’s overarching goals in resilience and sustainability.
 - Continue work on other ongoing Commission initiatives, including:
 - Enhance and strengthen visibility and infrastructure for sustainability initiatives on campus and in the community, including enhancing campus websites for the Sustainability Commission and Office of Sustainability. Please work in collaboration with the Office of Communications and Marketing on your communications-related activities.
- Work with the Office of Sustainability to create an integrated system for the various reporting platforms we engage with and use that system to inform our thinking about strategic initiatives.
- Having already identified the speaker for the 2016-17 Sustainability Lecture, organize and implement that event in consultation with the President’s Office staff. In light of the permanent shift in scheduling of this lecture from late spring to mid-fall semester, please initiate this fall your collaborative work with the Honorary Degree and Major Speaker Committee to identify nominees for the fall 2017 speaker.
- In collaboration with the Provost’s Office and the campus’ committees pertaining to curriculum, contribute to the presence of sustainability issues in curriculum discussions.
- In collaboration with student groups, the Division of Student and Campus Life, and faculty and staff, contribute to the presence of sustainability issues in co-curricular programming.
- Work with the Office of Sponsored Research and the Division of College Advancement to identify funding opportunities related to sustainability.
 - Provide to me by no later than June 1, 2017 a report on the 2016-17 activities of the Commission.
