

Genesee Valley Conservancy 2020/2021

Carol Kozlowski at Mothersfield: NOW PROTECTED

Tree Planting

We have accomplished a great deal in 2020:

- Completed three conservation easements protecting over 2,890 acres
- Added a Land Steward to help maintain and expand public access at our nature preserves
- Matched \$10,000 of challenge gifts to raise over \$28,474 to plant trees lost due to emerald ash borer

Trail maintenance

Habitat

Where will your support will go in 2021? Your support will help us:

- Continue with 26 conservation easement projects that will protect 8,250 acres
- Complete land expansions to two nature preserves that will add 50 acres for new trails
- Connect with landowners and communities that want to learn how they can protect land

Amplifying Community Support

Batzing Farm - NOW PROTECTED

2019's Giving Impact

Our success is 100% enabled by community support. Every contribution helps make our work possible: protecting land, securing grants, and lining up future conservation projects.

In 2019, \$160,000 in community donations to the Conservancy led to \$6.9 million in grant awards to support our farmland protection efforts and \$452,200 of in-kind contributions from landowners choosing to save their land and important natural resources for future generations.
