

Dan Barwick
College President
Independence Community College

"After more than a decade of school, I was finally learning about things that I hadn't learned before! Philosophy encouraged my curiosity about the world and gave me the tools to express myself clearly. My background in Philosophy has been central to both my personal life and my professional life. In both cases, it has helped me be more reflective, more capable of abstract thought, and more able to entertain new ideas."

Class of 1990
PHIL Major
PhD in Philosophy
University at Buffalo
