

Mandatory Teacher Certification Disclosure Relative to States and U.S. Territories Other Than New York State

New York State prides itself in the high quality of its licensed and certified professionals. For the protection of its citizens, each license and certificate has requirements that individuals must meet in order to be licensed or certified in New York State. SUNY's academic programs leading to licensure or certification are carefully designed to meet and exceed these State requirements. This is a role SUNY plays in protecting the public. Other states frequently have their own requirements, so if your goal is to practice in another state, this disclosure will help you check to see what that state requires.

Per U.S. Federal Regulations, §668.43 (2019 Rule), and in compliance with the State Authorization Reciprocity Agreements (SARA) Manual version 19.2, SUNY Geneseo provides the following disclosure related to the educational requirements for professional licensure and certification.¹

SUNY Geneseo cannot provide verification of an individual's ability to meet licensure or certification requirements unrelated to its educational programming. Such individual determinations are made by state licensing boards, and are fact-specific determinations.

As of July 1, 2020, SUNY Geneseo has made no determination that the curriculum is **insufficient** to meet the licensure and certification requirements for teacher certification in any of the 50 states and U.S. territories.
