

Geneseo

Annual Report of Sponsored Research 2010-11

We would like to thank our colleagues Betsy Colón and Traci Phillips in Grants Management and Sue Crilly in Accounting for their assistance in preparing this report, and for their excellent work in support of our mission during the year. We would also like to thank the members of the Research Council, members of the GREAT Day Planning Committee, and our colleagues Andrea Klein and Tammy Farrell in Campus Scheduling and Events, who all contributed significantly to the success of our activities this year. Special thanks to Brian Bennett in College Communications for providing such lovely photos for this report.

We particularly recognize and thank Steve West who this year completed four years of service as GREAT Day Coordinator. During this time GREAT Day flourished – more than doubling in size and becoming a true College tradition. Thank you Steve!

Comments on the Annual Report of the Office of Sponsored Research

In 2010-2011, the Office of Sponsored Research and the Grants Management Office worked closely with the Research Council and its Subcommittee on Supporting Proposal Writing, and the Research Foundation of SUNY on a number of endeavors to develop new initiatives that will further encourage and expand SUNY Geneseo's sponsored programs in the coming years.

Traditional Funding Activities: The number of external proposal submissions was at its highest point since 2007-08. Thirty-six faculty and staff members from sixteen different departments produced a total of 44 submissions. The total value of awards received was at its highest point since 2005-06. There were 33 active projects during the year, and expenditures increased dramatically from the previous year. Faculty members in the Department of Physics and Astronomy continued research with funding from the U.S. Department of Energy (through the Laboratory for Laser Energetics, University of Rochester), NASA (through Cornell University), and the National Science Foundation (NSF). The Chemistry Department, in addition to its on-going support from the Research Corporation for Science Advancement and the NSF, received two Congressional grants to equip a new molecular structure laboratory. Faculty members in the Departments of History and Mathematics also held NSF grants, and a new NSF grant was awarded to Geological Sciences faculty this year, adding to existing research support from two other NSF grants and one from the ACS/ Petroleum Research Fund. New and continuing National Institutes of Health funding supported research by faculty in the Psychology and Biology Departments. Research in Biology was also supported by a new award from the Livingston County Planning Department and continuing funding from JEANSEE, LLC. The National Endowment for the Humanities continued to support a program in the English Department. Faculty of the School of Education received a new award from the National Education Association and held continuing funding from the Rochester Area Community Foundation and the Genesee Valley Health Partnership. The History Department received a new fellowship award from the James Weldon Johnson Institute of Emory University.

Internal Funding: In collaboration with the Research Council, the Geneseo Foundation and the Accounting and Grants Management Offices, over 350 internal funding applications from faculty members and students were received and processed, resulting in 336 individual awards totaling \$265,841—the highest amount in Geneseo's history. Total internal funding for our formal grant and fellowship programs, combined with other planned expenditures in support of research and scholarly activities, amounted to more than \$288,000. Supported by an increase in funding from the Geneseo Foundation for the 2010-11 year, the Research Council awarded the first four Proposal Writing Course Releases for the 2011-12 year, and funding for Faculty Incentive Grants was increased by more than \$10,000 over the prior year's level.

GREAT Day: Geneseo's fifth annual GREAT Day was a huge success, with 862 students participating in 441 presentations, performances, and exhibits. Thomas D. Seeley, author of three books summarizing decades of research on honeybees and third keynote speaker to be supported by the Jack '76 and Carol '76 Kramer Endowed Lectureship Series, delivered a fascinating and informative address on "Honeybee Democracy."

Other Initiatives: Fulbright funded two Foreign Language Teaching Assistants for the 2011-12 year. The Xerox Center for Multicultural Teacher Education secured funding for its fifth successful Rochester Young Scholars Academy summer camp program, "Discovering the Iroquois in Geneseo (D.I.G.)," and the very successful Real World Geneseo (RWG) program was funded for a third year by the SUNY Office of Diversity and Educational Equity.

RESEARCH DEVELOPMENT AND SUPPORT PROGRAMS 2010-11

The Research Council offers a wide range of programs to support research development and scholarly and creative activity.

Programs for Faculty Members

- **Presidential Summer Fellowships** provide untenured faculty with an opportunity to participate in scholarly activities and establish an ongoing research program. Up to six \$3,500 stipends are awarded annually from funds provided by the College.
- **Geneseo Foundation Summer Fellowships and the Roemer Summer Fellowship** support the research and creative projects of faculty who have been awarded tenure. These fellowships are intended to enable completion of a significant project or to embark in a new direction. The \$4,000 Geneseo Foundation Summer Fellowships are funded by the Geneseo Foundation, and the \$5,000 Roemer award is supported by an endowment gift to the Geneseo Foundation from the late Dr. Spencer Roemer.
- **Proposal Writing Course Releases** provide full-time faculty members with time to write major proposals for submission to external funding agencies. Faculty members may request a course release to support the writing of either: 1) new proposals, or 2) significant revisions of previously submitted proposals. Support will be considered for major proposals in all academic fields and for a variety of initiatives (e.g. fellowships, research grants, or educational grants. Funded by the Geneseo Foundation.
- **Research Development Awards** provide support for a wide variety of needs associated with developing research and scholarly projects. Maximum award is \$1,000 or one-course release time. Funding is provided by the College.
- **Indirect Cost Return Awards** return part of the indirect costs to the project director for research expenses not covered by budgeted costs. Funded by the College.
- **Incentive Grants** are intended to encourage and support faculty initiatives in research and fund pilot studies, completion of manuscripts, data analyses, bibliographic or archival searches, and creative work. Travel to archives, libraries, and laboratories is also supported. Awards are limited to \$1,000, but faculty may request an additional \$500 to support the cost of involving a student in the proposed project. Funded by the Geneseo Foundation.
- **Faculty Travel Grants** are made to participants in professional meetings. Funded by the Geneseo Foundation. Maximum annual awards are \$800 for travel within the U.S. (excluding Hawaii) and Canada, and \$1,000 for travel to Hawaii or outside the U.S. and Canada.

- **Page Charge** allocations cover the costs of faculty publications in journals with mandatory page charges. Funded by the College.
- The **Hurrell/McNaron Award for Scholarly Presentation** provides a \$1,000 award to an untenured faculty member in support of an outstanding paper delivered at a major conference in the discipline. The award is funded through the Geneseo Foundation by an anonymous donor.

Programs for Students

- **Undergraduate Research and Travel Grants** support student research and conference participation in conjunction with a faculty member. Maximum awards are \$650 per student per semester. Funded by the Student Association and the Geneseo Foundation.
- **Graduate Student Research and Travel Grants** support graduate student research and conference participation in conjunction with a faculty member. Maximum awards are \$650 per student per semester. Funded by the College.
- **The Dr. Wendell and Barbara Rhodes Research Award** supports undergraduate student research or field study. Preference is given to scholarly research combining a natural science and a social science such as biology/sociology or geology/anthropology. The maximum award was \$600 for the 2010-11 year. Funded through the Geneseo Foundation by an endowment established by Dr. Wendell and Barbara Rhodes.
- **Dean Johnston and Geneseo Foundation Student Research Assistantships** provide faculty members with paid research assistants for their scholarly projects. Undergraduate students receive a stipend of \$500. The Dean Johnston Assistantships are funded through an endowment established by CPAC, Inc.
- **Undergraduate Summer Fellowships** provide a \$3,000 stipend for students to undertake a research or creative project under the direction of a faculty member. Students must devote two consecutive summer months to their project. Funded by Follett Higher Education Group and the Geneseo Foundation.

Complete guidelines, application forms and additional information on Geneseo's internal funding programs can be found on the Office of Sponsored Research web site:

<http://sponsoredresearch.geneseo.edu>

2011 SUMMER FACULTY FELLOWSHIPS

Roemer Summer Faculty Fellowship (\$5,000)

Jani Lewis, Associate Professor, Biology

Use of E-cadherin as an early marker for vulvar carcinoma in patients presenting with lichen sclerosis and lichen planus

Geneseo Foundation Summer Faculty Fellowships (\$4,000 each)

Emilye Cosby, Professor, History

"Anything I was big enough to do": A History of Women in SNCC

Julia Walker, Professor, English

Knowing Pictures: John Donne and Eikasia

Presidential Summer Faculty Fellowships (\$3,500 each)

Kadjo Adabra, Assistant Professor, Languages and Literatures

The Posthumous Impact of Peuples noirs, peuples africains ("Black People, African People") in the Native Cameroon of Mongo Béti

Jim Aimers, Assistant Professor, Anthropology

The Use of Materials Science Techniques in the Analysis of Ancient Maya Artifacts

Vincent Markowski, Assistant Professor, Psychology

Effects of Exposure to the Flame Retardant HBCD on Learning and Attention

Patrick Rault, Assistant Professor, Mathematics

On uniform bounds for rational points on rational curves and thin sets

Annmarie Urso, Assistant Professor, Education

The Role of Cognitive Profiles in Predicting Poor Readers and Planning Appropriate Interventions in Regular and Irregular Orthographies

2011 HURRELL/MCNARON AWARD FOR SCHOLARLY PRESENTATION (\$1,000)

Meredith Marko Harrigan, Assistant Professor, Communication

Communicatively Constructing Identities: An Exploration of the Multivocal, Dialectical Process of Identity-Work for Parents of Visibly Adoptive Children

**Fifth Annual
Geneseo Recognizing Excellence, Achievement and Talent
(GREAT) Day**

Tuesday, April 12, 2011

The Jack '76 and Carol '76 Kramer Endowed Lectureship

Thomas D. Seeley

Honeybee Democracy

Abstract of Address

Honeybees make decision collectively – and democratically. Every year, faced with the life-or-death problem of choosing a new home, honeybees stake everything on a process that includes collective fact-finding, vigorous debate, and consensus building. Seeley will describe how these bees evaluate potential nest sites, advertise their discoveries to one another, engage in open deliberation, choose a final site, and navigate together-as a swirling cloud of bees-to their new home. He will argue that these incredible insects have much to teach us when it comes to achieving collective wisdom. A decision-making group should consist of individuals with shared interests and mutual respect, a leader's influence should be minimized, diverse solutions should be sought, vigorous debate of the options should be encouraged, and the majority will should be counted on for a dependable solution. We will see that with the right organization, decision making groups can be smarter than even the smartest individual in them.

Biography

Dr. Thomas D. Seeley is a Professor in the Department of Neurobiology and Behavior at Cornell University, where he teaches courses in animal behavior and does research on the functional organization of honey bee colonies. He grew up in Ithaca, New York. He began keeping and studying bees while a high school student, when he brought home a swarm of bees in a wooden box. He went away to college at Dartmouth in 1970, but he returned to Ithaca each summer to work at the Dyce Laboratory for Honey Bee Studies at Cornell University, where he learned the craft of beekeeping and began probing the inner workings of the honey bee colony. Thoroughly intrigued by the smooth functioning of bee colonies, he went on to graduate school at Harvard University where he studied under two ant men (Drs. Bert Hölldobler and Edward O. Wilson), began his research on bees in earnest, and earned his Ph.D. in 1978. After teaching at Yale for six years, he worked his way home to Ithaca/Cornell in 1986, where he has been ever since. In recognition of his scientific work, he has received the Senior Scientist Prize of the Alexander von Humboldt Foundation, been awarded a Guggenheim Fellowship, and been elected a Fellow

of the American Academy of Arts and Sciences. Dr. Seeley's research focuses on the internal organization of honey bee colonies and has been summarized in three books: *Honeybee Ecology* (1985, Princeton University Press), *The Wisdom of the Hive* (1995, Harvard University Press), and *Honeybee Democracy* (2010, Princeton University Press).

The GREAT Day Planning Committee:

Joan Ballard, Department of Psychology
 Patrice Case, School of the Arts
 Graham Drake, Department of English
 Walter Freed, Department of English
 Michael Rozalski, School of Education
 Aaron Steinhauer, Department of Physics and Astronomy
 Anne Baldwin, Sponsored Research
 Patty Hamilton-Rodgers, Assistant GREAT Day Coordinator
 Andrea Klein, Campus Scheduling and Special Events
 Stephen F. West, GREAT Day Coordinator

GREAT Day 2011

General Statistics and Budget

	No. of Sessions	No. of Presentations	No. of Students Participating	Total Attendance	Average Attendance Per Session
Concurrent Presentations¹					
1 (1st AM)	20	65	173	415	20.8
2 (2nd AM)	20	63	127	423	21.2
3 (1st PM)	20	56	124	484	24.2
4 (2nd PM)	12	32	93	203	16.9
Subtotals	72	216	517	1525	21.2
Keynote Address²				480	
Poster Sessions^{3,4}		175	529		
AM				350	
PM (lunch)				1200	
PM (reception)				375	
Dance Performances		1	16		
Artwork Exhibits		25	10		
Chamber Music Festival	11	24	53	325	
Totals⁵		441	862		

¹ Attendance figures for concurrent sessions exclude presenters, moderators, and commentators

² Estimated

³ 13 posters in the Milne Library and 162 in the Union Ballroom

⁴ Estimated Union Ballroom total headcount

⁵ Overall, 263 students had multiple presentations, performances, or exhibits, Therefore the total number of students participating is equal to the column sum minus 263.

GREAT Day 2011 Budget Summary

Jack and Carol Kramer Endowed Lectureship; keynote	\$1,583
Supplies	\$1,676
Poster Printing	\$3,805
Program and other printing, name tags & promotion	\$4,535
Campus Auxiliary Services*	\$7,178
* Includes \$5,000 Student Association sponsorship of luncheon	
Facilities and Tech Fees, Other Services	\$1,060
Total	\$19,836
