- Finals should be proctored during the scheduled session meeting times: for example, for a three-credit course, a three-hour final exam may be scheduled by combining the last two or three lectures of the session as appropriate.
- An online course must cover content equivalent to that of an on-campus summer offering of the same course.
- Total minutes for Labs/Studio/Rec sections to be calculated based on bulletin designation.
- Lectures in excess of 160 minutes (grayed cells in table) are *not* recommended.
