

Name _____

GREAT Day Extra Credit

Find 3 posters or presentations that are related to electrical, magnetic, or wave phenomena in some way. This does not need to be explicit in the poster or presentation itself. For instance, a presentation might involve charged particles, but not explicitly talk about the Coulomb electric field — that would count.

Presentation or Poster number:

This presentation relates to our class because... (describe in one to two sentences)

“The above person visited my presentation or poster”

Legible signature of student presenter
